

Sermon Notes

John 17:21-26 | February 15th

Outline

The _____ we share moves from affinity to _____.

Every Christian needs a _____ church

Every _____ church is a support to the
_____ church

every _____ church is challenged

by the _____ church

Even the _____ church is connected to the
_____ church

At every level we pursue the unity Jesus prayed
for.

When Jesus prays that the Father's love would be in us, what do you think that love actually looks like in everyday life? How does the local church make that possible?

*Sam said, "We pursue the unity that Jesus prayed for"
What is one concrete action you can take this week to pursue the unity Jesus prayed for, either locally, regionally, or globally?*

What's the difference between affinity and unity ?

What does it mean practically that you're connected to every other person connected to Jesus? How should that change how you think about Christians in other churches or denominations?

Have you ever experienced a group that felt unified around something bigger than just shared interests, what was it like?

Why does every Christian need a local church?

The sermon says "every Christian needs a local church." Why do you think local matters - why not just follow Christian content online or read the Bible on your own?
